

**Observation Table**

Using the table below list five places in the room where you think you will find bacteria contamination.

	Possible sites of contamination	Were bacteria found here?
1		
2		
3		
4		
5		

1. Were there any sites that you did not think of? If so, where were they?
  
2. What are the best ways to prevent bacteria and other microbes spreading to other surfaces?
